- Creation of institutional websites and e-commerce platforms optimized for conversion.
- Development of custom themes.
- Experience with Elementor, Oxygen, Bootstrap, SASS, and GULP.
- Intuitive and responsive user interfaces for various devices.
- Integration with APIs and external libraries.
- Knowledge in SEO and performance optimization.
- Configuration and management of servers.
- Experience with agile methodologies (Scrum).
- Effective communication and teamwork.

PROFESSIONAL EXPERIENCE

December 2019 - Current

Mid-Level Front-end Developer FASTERS SOLUCOES EM TI LTDA | São Paulo, SP

- Creation and maintenance of WordPress websites, using Bootstrap, PHP, Javascript, and other technologies.
- Proficiency in Figma and Adobe XD for layout replication.
- Expertise in hosting, including configuration and maintenance of Dedicated, Shared, and Cloud servers such as Configr and Hostgator.
- Website development with a focus on SEO and performance, optimizing the user experience.

February 2018 - December 2020

Web Designer Idea Publicidade | Extrema, MG

- Development of websites, portals, and landing pages using HTML, CSS, Javascript, PHP, SASS, and Photoshop.
- Proficiency in configuring dedicated and shared hosting environments.
- Providing support and training to users on the functionality of projects.

ACADEMIC BACKGROUND

February 2015 - Juny 2017

Bachelor's Degree | Systems Analysis and Development.

FAEX - University of Extrema., Extrema

The professional in Systems Analysis and Development specializes in conceiving and implementing innovative technological solutions. Comprehensive experience in translating business requirements into efficient systems, using advanced skills in programming languages, database design, and agile methodologies. Demonstrated success in end-to-end projects, from requirements analysis to the delivery and maintenance of robust systems.

February 2011 - December 2011

Technologist | Maintenance of Computers and Peripherals.

Senai, Extrema

The "Computer and Peripheral Maintenance Course" provides a solid foundation in computer hardware and peripheral devices. Throughout the training, I acquired essential technical skills for diagnosing, repairing, and optimizing systems, including preventive and corrective maintenance. With knowledge in fault identification, component replacement, and peripheral configuration, I am prepared to contribute effectively to the maintenance and efficient operation of computing environments.
